

HOW TO CHECK YOUR CREDIT LEVEL: PREPAID

➤ The black line represents your credit/balance in kWh: ←

- Toggle between weekly, monthly and yearly views of the consumption graph. ←
- Added credit will dictate that the black line moves up and daily consumption will Cause the black line to go down.
- Note that our system only updates at 12 midnight every day. Therefore, credits loaded will only reflect the next morning.

➤ The blue columns represent daily/weekly/monthly consumption. ←
